MUSIC

The award-winning **Carbon Men soundtrack is now on all music streaming sites.**

(iTunes, Spotify, Amazon, etc.)

Search under **Roger James Kuhns** to find it.

ALTADENA FIRE

In spring, Anne and I visited the January 7-31 wildfire damage in Altadena/Eaton, CA. There were 14 fires in all.

We found that Anne's childhood home had burned to the ground.

Fires burned 18,000 homes & 57,000 acres.

A combination of factors, including climate change, related drought, and poor urban planning all contributed to the disaster.

LEGISLATION!

Our climate bill passed in Connecticut

It has been FOUR YEARS of work!

It is stripped down from what we wanted, but it is a step forward.

It addresses important "green" jobs, renewable energy and environmental aspects of our society.

Substitute House Bill No. 5004

Public Act No. 25-125

AN ACT CONCERNING THE PROTECTION OF THE ENVIRONMENT AND THE DEVELOPMENT OF RENEWABLE ENERGY SOURCES AND ASSOCIATED JOB SECTORS.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

Section 1. (NEW) (Effective from passage) (a) In the aggregate, state agencies shall have the following greenhouse gas emissions reduction goals: (1) A forty-five per cent reduction from 2001 levels by 2030; (2) a seventy per cent reduction from 2016 levels by 2040; and (3) achieving a level determined to be net-zero by 2050.

(b) Such state agencies shall have the goal of only utilizing zero-carbon generating electricity by 2030.

(c) Such state agencies may use the social cost of greenhouse gas emissions when evaluating the costs and benefits of activities and improvements to the facilities of such agencies to meet the goals in this section. For purposes of this section, "social cost" includes, but is not limited to, net agricultural productivity, harms to human health, property damage and the value of ecosystem services.

(d) Not later than January 1, 2026, the Commissioner of Energy and Environmental Protection shall publish guidelines for such state agencies on the social cost of greenhouse gas emissions on the

SETBACKS from the GOVT:

- 13 million acres of Alaska open for oil & gas drilling.
- Planned removal of Environmental Justice from EPA reports.
- Rollbacks on Energy & Vehicle Standards.
- Defunding FEMA & NOAA & NWS

WHY THIS BLOG? *Our small group seeks to educate with films, climate workshops, helping write climate legislation for positive actions, and community needs.*
